

## REDUCE - REUSE - RE-INK - RE-THINK

Introducing a rubber stamp process that now has the environment in mind.

PSI self inking stamps support Rapid Process Technology with a large range of ink colours, sharp impressions, robust and reliable functioning. All this together with the most environmentally friendly manufacturing system available.

No chemicals, No water, No effluent, No offensive odour, No toxic gasses, No separate pads, Re-inkable and manufactured with modern energy efficient machines.

Does your manufacturer have a production process to measure up with that?

Consider the impact traditional processes have on our environment, your future and future generations?

Selecting this RapidProcessTechnology system stamp is the easiest way to help reduce your carbon footprint.
